Profile

Full-Stack Developer with hands-on Experience in building scalable and production-ready web applications, including **AI-powered SaaS platforms and ERP systems**. Proficient in **React.js, Next.js, JavaScript, TypeScript, Node.js, and Python** and Experienced with **Docker, n8n, Git, Claude**. Skilled in understanding client requirements, translating business needs into technical solutions, and delivering product features that drive business value and revenue.

Education

University of Mumbai, Mumbai — **July 2022 – May 2026**
Bachelor of Engineering in Computer Engineering — **CGPA: 8.44**
Dhanaji Nana Jr. College, Jalgaon — **July 2021 – Jun 2022**
XII-HSC — **Percentage: 83.5**

Skills

Languages: JavaScript, Java, Python, SQL
Frontend: React.js, Next.js, React Native, HTML5, CSS3
Backend & Databases: Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Supabase
Tools & AI: Git, GitHub, Docker, n8n, Claude Code, Cursor, Web js

Professional Experience

Essentient Software Services (Ayvik.ai) — **Dec 2025 – Oct 2026**
Software Developer — *Navi Mumbai, Maharashtra*

- Developed production-ready web applications using **Next.js, React.js, TypeScript, and JavaScript**, integrating REST APIs with a **Python** backend.
- Led frontend development of Vani, a Voice AI campaign platform, building 10+ responsive screens in Next.js/TypeScript and integrating REST APIs across a microservices backend.
- Worked on **ExporHub**, developing export operations modules, dynamic dashboards, and workflows including customer inquiries, sales orders, user management, and role-based access control (RBAC).

InstaPrepsAI — **Jun 2025 – Nov 2025**
Software Developer Intern — *Mumbai, Maharashtra*

- Developed a responsive testimonial page for 7 Classes using **React.js** and **Node.js**, focusing on clean UI, user experience, and SEO-friendly design.
- Enhanced the test section UI, improved website responsiveness and performance, and managed Git repositories and Docker-based development environments during the internship.

Projects

Courier Tracking SaaS Platform | *React.js, CSS, Node.js, PostgreSQL(Supabase)* — **Feb - 2026**

- Built a user-friendly Courier Tracking platform that helps courier companies manage shipments and allows customers to track packages in real time using Tracking ID.
- Focused mainly on frontend development by creating responsive, clean, and modern UI pages using **React.js** and **CSS**.
- Designed dashboards, tracking pages, and shipment status interfaces with a strong focus on user experience and website responsiveness.

ExporHub – Export Management System | *Next.js, TypeScript, Python, PostgreSQL* — **Dec - 2025**

- Developed a frontend-focused export operations management system to manage customer enquiries, sales orders, price lists, user management, and product masters using Next.js and TypeScript.
- Integrated RESTful APIs with a Python backend and PostgreSQL, enabling full CRUD operations, role-based access control (RBAC), and secure data validation across modules.

WeaveDeskAI – Textile CRM & Order Management Platform | *Next.js, TypeScript, PostgreSQL, Docker* **Aug 2026**

- Built an AI-powered CRM that converts WhatsApp and email inquiries into structured tickets, reducing manual data entry for the sales team.
- Implemented AI-based fabric specification decoding, bulk uploads, and customer/employee and order management modules.

Certifications and Achievements

- Winner of **SIH-24 Internal Hackathon** (Oct 2024, Mumbai) for building a web-based solution using **HTML, CSS, JavaScript**.
- Certified in **Java** (HackerRank, Jan 2025) with strong **OOP** and problem-solving skills.
- Certified in **JavaScript** (KG Coding, Dec 2024) with hands-on experience in core concepts and best practices.
